

ERGOHUMAN ELITE 2

ERGOHUMAN ELITE 2 OVERVIEW

The Ergohuman Elite 2 office chair has been remastered with enhanced functionality and new elastomeric mesh upholstery.

Designed for office workers who need a comfortable chair for intensive use, its flex zones ensure continuous support for the back and lumbar region, while the adjustable armrests relieve pressure on wrists, arms, and shoulders. Additionally, the height-adjustable pivoting headrest helps reduce neck strain.

Engineered with a dual pivot mechanism which includes recline position locking, seat slide, forward synchro tilt seat, and seat height adjustment, Ergohuman Elite 2 also features an automatic lumbar support system with precise tension adjustment, adjustable arms, and an optional headrest. The Elite model can also be upgraded to a Plus version which includes a recline limiter function and additional aluminium detailing.

The Ergohuman Elite 2 boasts 97% recyclability, has Greenguard Gold Certification and meets BS 5459. Available in a black or grey frame with a polished aluminium base and in a choice of mesh finishes. A range of accessories make this chair a performance office chair.
